# Contents of *Ecological Modelling*, Vol. 68

VOL. 68 NOS. 1/2 JULY 1993

**Announcement from the Publisher** ..... v
**Symposium Announcement and Call for Papers** ..... vi

Special Issue

**Theoretical Modelling Aspects**
Edited by S.E. Jørgensen

Editorial ..... viii
Environmental model calibration under different specifications: an application to the model SED
D.T. Van der Molen and J. Pintér (Lelystad, Netherlands) ..... 1
Statistical validation
D.G. Mayer (Brisbane, Australia) and D.G. Butler (Toowoomba, Australia) ..... 21
The predictive validation of ecological and environmental models
M. Power (Waterloo, Ont., Canada) ..... 33
On adequacy of ecological models
N.K. Luckyanov (Miami, FL, USA) ..... 51
Sampling ecological information: choice of sample size, reconsidered
P.M. Dixon and K.A. Garrett (Aiken, SC, USA) ..... 67
Implementing *i*-state configuration models for population dynamics: an object-oriented programming approach
C.C. Maley and H. Caswell (Woods Hole, MA, USA) ..... 75
Object-oriented ecosystem modelling
W. Silvert (Dartmouth, N.S., Canada) ..... 91

VOL. 68 NOS. 3/4 AUGUST 1993

Sensitivity analysis of a simulation model of methane flux from the Florida Everglades
R.T. James (MS, USA) ..... 119
A simple groundwater recharge–depletion model for the tropical Magela Creek catchment
I.M. Vardavas (Crete, Greece, Sydney, Australia) ..... 147
"Calluna", a simulation model for evaluation of impacts of atmospheric nitrogen deposition on dry heathlands
G.W. Heil (Delft, Netherlands) and R. Bobbink (Utrecht, Netherlands) ..... 161

"Calluna", a simulation model for evaluation of impacts of atmospheric nitrogen deposition on dry heathlands
G.W. Heil (Delft, Netherlands) and R. Bobbink (Utrecht, Netherlands) ..... 161

Above-ground vegetative development and growth of winter wheat as influenced by nitrogen and water availability
W.W. Wilhelm (Lincoln, NE, USA), G.S. McMaster (Fort Collins, CO, USA), R.W. Rickman and B. Klepper (Pendleton, OR, USA) ..... 183
Sources of variation for fire spread rate in non-homogeneous fuel
R.H. Taplin (Murdoch, Australia) ..... 205
Oscillatory behaviour in a resource-based plant–herbivore model with random herbivore attack
A.K. Sarkar and A.B. Roy (Calcutta, India) ..... 213
Coexistence of similar species in models with periodic environments
W. Ebenhöh (Oldenburg, Germany) ..... 227
Dynamics of fish populations with different compensatory processes when subjected to random survival of eggs and larvae
A.L. Jensen (Ann Arbor, MI, USA) ..... 249
An aggregation algorithm for increasing the efficiency of population models
A.R. Stage, N.L. Crookston and R.A. Monserud (Moscow, ID, USA) ..... 257
Individual-based modeling of populations with high mortality: A new method based on following a fixed number of model individuals
K.A. Rose, S.W. Christensen and D.L. DeAngelis (Oak Ridge, TN, USA) ..... 273
The distributed derivative: an aid to modular modelling
W. Silvert (Dartmouth, Canada) ..... 293
